SUMMARY

I am a software Engineering undergraduate with hands-on experience developing full-stack web applications using PHP, Laravel, MySQL, JavaScript, React.js, HTML, CSS, and RESTful APIs. Experienced in developing database-driven applications, implementing CRUD operations, authentication and authorization, REST API development, API integration, database management, and responsive user interfaces. Developed a Laravel-based e-commerce platform and multiple academic software projects involving backend development, database design, real-time data integration, testing, debugging, and software maintenance. Familiar with MVC architecture, Object-Oriented Programming, Git/GitHub, clean code practices, and software development best practices. Strong problem-solving mindset with a willingness to learn, work independently, and deliver project requirements within deadlines.

TECHNICAL SKILLS

Programming Languages

- Java
- JavaScript
- PHP
- Kotlin
- SQL

Frontend Development

- HTML
- CSS
- React.js
- Next.js
- Bootstrap
- Tailwind CSS
- Vite

Backend Development

- Laravel
- Spring Boot
- Node.js
- RESTful APIs

Software Engineering Concepts

- Object-Oriented Programming [OOP]
- MVC / MVVM Architectures
- Software Development Life Cycle [SDLC]
- Agile Methodology
- Database Design
- Authentication & Authorization
- CRUD Operations
- REST API Development
- Testing & Debugging
- Responsive Design

Database

- MySQL
- PostgreSQL
- MongoDB
- Firebase
- SQLite
- MSSQL

Mobile Development

- Kotlin
- Flutter

Tools & Platforms

- Git
- GitHub
- VS Code
- IntelliJ IDEA
- Postman
- Android Studio

PROFESSIONAL EXPERIENCE

Personal & Academic Software Projects | 2024 – Present

- Developed and maintained full-stack web applications using **PHP, Laravel, MySQL, React.js, JavaScript, HTML, and CSS**.
- Developed **RESTful APIs** for authentication, CRUD operations, data management, and communication between frontend and backend systems.
- Designed and managed relational databases using **MySQL**, including database structures and application data relationships.
- Implemented **authentication, authorization, CRUD functionality, and backend business logic** in software applications.
- Integrated APIs and external services into applications to support application functionality and data exchange.
- Performed **testing, debugging, troubleshooting, and software maintenance** to identify and resolve application issues.
- Applied **MVC architecture, Object-Oriented Programming, database design, and clean coding practices** throughout software development projects.
- Developed responsive user interfaces using **Bootstrap, Tailwind CSS, JavaScript, and React.js**.
- Used **Git and GitHub** for version control and source code management.
- Worked on multiple software projects independently while following software development processes and meeting academic project deadlines.

PROJECTS

TexyShield | HND Final Project | 2026

- Developed an Android-based real-time Smart AI-Based Garment Factory Safety Monitoring application using **Kotlin** and **Jetpack Compose**.
- Programmed **ESP32** and **ESP32-CAM** microcontrollers using **C++** (Arduino IDE) for IoT sensor data collection and automated controls.
- Integrated **Firestore Realtime Database** and Authentication for live data synchronization and secure access.
- Trained and deployed AI/ML models (PPE detection, fire/gas anomaly) using **Python**, **OpenCV**, **Google Colab**, and **TensorFlow Lite/ML Kit**.
- Designed wireframes and intuitive user interfaces for Admin and Worker dashboards using **Figma**.

Technologies: Kotlin, Jetpack Compose, C++, ESP32, Firestore, TensorFlow Lite, ML Kit, Python, OpenCV, Google Colab, Figma, Android Studio.

Emerging Technologies Used: AI/ML for intelligent safety monitoring and predictive maintenance, IoT for real-time factory monitoring and automated control, AR for interactive machine assistance, and Blockchain for secure, immutable attendance and safety records.

StyleAura | Diploma Final Project | 11/2024 – 12/2024

- Developed a full-stack **e-commerce web application** using **Laravel** and **MySQL**.
- Implemented **authentication**, **CRUD operations**, **product management**, and **order management**.
- Built responsive interfaces using **HTML**, **CSS**, **Bootstrap**, and **JavaScript**.

Technologies: PHP, Laravel, MySQL, HTML, CSS, Bootstrap, JavaScript.

TwinTrek Flip Game | Academic Project | 11/2025 – 12/2025

- Developed an interactive memory card game using **React.js** and **Spring Boot**.
- Implemented **user authentication** and **leaderboard functionality**.
- Designed responsive interfaces for desktop and mobile devices.

Technologies: React.js, Spring Boot, Java, Git, GitHub.

AgriScout – Android Agriculture Management Application | Academic Project | 2026

- Developed an **offline-first Android application** using Kotlin, Jetpack Compose, and MVVM.
- Implemented **Firestore and Room Database** for local storage and cloud synchronization.
- Integrated **CameraX**, **GPS**, **Weather APIs**, **Retrofit**, and **PDF/CSV export**.

Technologies: Kotlin, Jetpack Compose, MVVM, Firestore, Room Database, CameraX, GPS, Retrofit, REST APIs.

Health Detection Smart Watch | Cybots 2025 Exhibition Project | 09/2025 – 10/2025

- Developed an **IoT-based smart wearable** for real-time health monitoring.
- Integrated sensors for **heart rate**, **oxygen level**, **body temperature**, and **ECG**.
- Used ESP32 for sensor data collection and hardware-software communication.

Technologies: ESP32, IoT, Embedded Systems, Sensor Integration.

EDUCATION

National Institute of Business Management (NIBM) | Kandy

Higher National Diploma in Software Engineering | 2025 - Present

Key Modules: Programming, OOP, Web Development, Database Management, Software Engineering

National Institute of Business Management (NIBM) | Kandy

Diploma in Software Engineering | 2024 - 2025

Key Modules: Fundamentals of Programming, Web Basics, Database Concepts

British Way English Academy | Kandy

Advanced Certificate in Spoken English | 2023

Nakkawatta National School | Narammala

G.C.E. (A/L) Examination | 2020 - 2022

physical Science

Nanasala | Narammala

Diploma in Information and Communication Technology | 2017 - 2019

Key Modules: Computer Fundamentals, Microsoft Office, Web Development, Internet & Email

Nakkawatta National School | Narammala

G.C.E. (O/L) Examination | 2008 - 2019

CETIFICATIONS

British Way English Academy | Kandy
Advanced Certificate in Spoken English | 2023
Merit Pass

Nanasala | Narammala
Intel Easy Steps Basic Course | 2019

Nanasala | Narammala
Diploma in Information and Communication Technology | 2017 - 2019

LANGUAGES

Sinhala – Native Proficiency
English – Professional Working Proficiency

EXTRACURRICULAR ACTIVITIES

Media Club – NIBM Kandy
Member of the Dancing Circle

IT Society – NIBM Kandy
Member of the IT Society
